## PREFACE

Institutions of higher education are presently witnessing the rapid expansion of faculty unionism. While many in academe predict that collective bargaining will have a substantial impact on American institutions of higher learning, there are few organizations (like the National Center) which are devoted to an objective exploration of the Union phenomenon.

This bibliography provides the first comprehensive survey of the literature dealing with labor negotiations and non-teaching professionals in higher education. It is the third extensive bibliography related to collective bargaining in higher education published by the National Center. (Bibliographies #1 and #2 concern faculty in colleges and universities.)

This compilation includes references to NLRB and Court Rulings, PERB Decisions, Arbitration Awards, etc. Special features of this bibliography are an Author-Person Index and a Keyword-Subject Index both of which provide an indispensable cross-reference to the user. Included among the references are books, journal and newsletter articles, unpublished speeches, and citations from the Government Employee Relations Report (GERR), and Labor Relations Reference Manuals (LRRM, LRR).

Information dealing with the Center's publications, services, and faculty contract file and computer system is incorporated at the end of the bibliography.

Additions and corrections to this bibliography will be appreciated. The Center solicits copies of published and unpublished speeches and reports to be included in future bibliographies, or for publication in the Center's Newsletter. We would welcome reprints

all appropriate articles, briefs in representative unfair labor practices, arbitration cases, arbitration/fact-finding awards, court cases, NLRB and PERB Decisions.

Individual searches can be requested for \$100 by subscribers to the Center's complete services. Full membership information will be sent on request. It includes attendance at the April, 1975 Annual Conference and all Center publications for the year.

SHOWING OF INTEREST - EXPECTED PUBLICATION DATE - DEC., 1974

LIBRARIAN STATUS IN FACULTY CONTRACTS - A full-text computer search print-out on contract clauses related to librarians' salary, status, working conditions, etc. in 126 college faculty contracts, approximately 600 pages divided into three sections:

- a) Claremont Colleges, California contract with Office and Professional Employees International Union. The 30 page contract is the first of its kind covering professional and non-professional library employees;
- b) Four-year college contract clauses;
- c) Two-year college contract clauses.

Each page of the contract clauses sections identifies the lines on which librarians references appear, the college name, state, union, public or private, expiration date of contract and page of contract together with the full-text of the clause.

The National Center is exploring ways of making information available in as economic a fashion as possible. One method is to assess potential interest and then set publication decisions and costs. If 125 pre-publication orders are received for the librarian's study your cost would be \$30 (250 orders - \$20; 500 orders \$15; fewer than 125 orders \$100). Those interested in the librarian's study please write the Center of your interest.
